

The Latest and Greatest Discovery.

Dr. J. De Prati's Hamburg Fig—a crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boom to every household. A most delicious laxative or purgative prepared from fruits and vegetables. So perfectly harmless that they may be administered with safety to an infant. So efficacious to adults that a single dose will move their bowels, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, biliousness, constipation, indigestion, dyspepsia, and piles, they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. Price, 25 cents a box. Sold by J. De Prati & Co., Proprietors, 9 and 11 Front street, San Francisco.

Heart Disease!!

Read the hospital reports, read the mortuary reports, read the medical publications, read the daily newspapers, and learn how wide-spread is heart disease, how difficult of detection it is to most people, how many and how sudden are the deaths it causes. Then read Dr. Flint's Treatise on Heart Disease, and learn what it is, what causes it, what symptoms it gives rise to, what its symptoms are, and how it may be cured. If you find that you have heart disease, ask your druggist for a bottle of Dr. Flint's Heart Remedy. The treatise may be had on application to J. J. Mack & Co., Nos. 9 and 11 Front street, San Francisco.

Grooming Farm Horses.

With careless farmers the busier the season the less grooming do their horses get. This is not only a mistake, but it is a cruel practice. No horse can feel well without having at least one good cleaning up each day. It is best to give them two, but lots of teams would be thankful for one. A general rubbing up and brushing should be given after the day's work is done to insure a good night's rest. If this is done it will not require so much time in the morning to get the horses in good shape. The general practice throughout the country is to do all the currying in the morning, and when work is pressing time is considered too precious to waste in this way. It is generally made a job for before breakfast; a great many men can not work with an empty stomach, consequently the work is slighted. If you want your horses to feel like doing a good day's work you must clean up their hides so that they may sweat freely. Time spent in grooming will be more than made up every day by the horses being able to do a greater amount of work. The farmer who takes his horses to the fields with the sweat and accumulations of dirt of the day previous, and a good share of the manure from the stable upon them, should be taken in hand by the Society for the Prevention of Cruelty to Animals. Grooming is as essential to the health of horses as judicious feeding and watering, and many cases of illness among farm horses could be charged up to the account of neglect to attend to this most necessary duty.

Causes of Poor Butter.

1. "Sticky" or woody butter is one of the worst faults, which in a short time entirely destroys the butter. It is caused by the tub in which the butter is packed, it being made of green wood, or insufficiently soaked in water and brine before the butter is packed. The fault starts in the butter nearest the wood, and thence works into the whole mass.
2. Mouldy butter. If kept in a damp, foul room mould forms on the butter, especially if the latter is of poor quality.
3. Tallowy butter is a fault mostly found in old butter, and which is first observed on the surface. Exposure to light at least delays the development of this fault.
4. Cheesy and milky butter comes from such dairies only where the making is inferior.
5. Spotted and streaky butter is caused by inferior coloring, or by lack of caution in salting, or by faulty working, especially if the working room is too cool.
6. Rancid and bitter butter comes from lack of cleanliness and otherwise from poor making.
7. Oily, fishy, tainty butter often appears a few days after it is made and is caused by improper preparation of the cream for churning, or by dirty cream vats.

When a horse is lame after traveling, and is constantly shifting the foot and rests it on the toe, says an exchange, it indicates sprain of the back tendons or disease of the navicular bone. The latter is distinguished by striking the frog with a small hammer, and if the horse winces the navicular bone is affected; if there is no tenderness found there the disease is in the tendon which plays over the cartilage of the pastern joint. The remedy for the former is to blister behind the heels, and to wear a bar shoe or thick leather leese under the shoe, and to stuff the space under the sole with tow. For the inflamed tendon apply bandages soaked with cold water with a little saltpetre dissolved in it, and after the lameness has subsided apply a blister to the sides and front of the pastern. The horse must rest.

In managing setting hens we have found the do-nothing policy about as effectual as any. When a hen has made up her mind to set, she knows how to do it about as well as the most intelligent human beings. Let her set. Do not disturb her more than is possible at hatching. Of course you may be curious to see how many chickens she has hatched, but better hold your curiosity under restraint. Still it is well to examine her once or twice and remove the shells that have accumulated. Sometimes an unhatched egg will be capped by these empty shells, and the capping should be removed. But do so little as possible at this time, and make the least possible fuss. [Farmers' Club Journal.]

MISCELLANEOUS.

EVERY NIGHT I SCRATCHED

Until the Skin was Raw, Body Covered with scales like spots of Cured by the Cuticura Remedies.

I am going to tell you of the extraordinary change your Cuticura Remedies performed on me. About the first of April last I noticed some red pimples like corns on my face, but I thought nothing of it until some time later, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night until I was raw, and then the next night the scales being formed beneath, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your Cuticura Remedies, and I purchased them from my druggist and applied almost immediately. I began to notice that the scales gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began using the Cuticura Remedies, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the Cuticura Remedies to all in my vicinity, and I know of a great many who have been cured by them and the knowledge of them, especially mothers who have babies with scaly eruptions on their heads and bodies, is a relief to express in words the thanks to you for what the Cuticura Remedies have done for me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's.

</

MANY of the leading eastern papers are advocating the compulsory education of Indian children. The St. Louis Globe-Democrat is a strong and influential advocate of the proposed measure and in a recent editorial says the bill to provide for the compulsory education of Indian children implies a departure from the present Indian policy which ought to have been made long ago. Millions of dollars have been squandered in a prolonged and disappointing effort to persuade these people that they should send their children to school and thus prepare them for the duties and responsibilities of civilized life. Those who have had occasion to investigate the matter have known all the time that the system was not working satisfactorily, for the simple reason that Indian parents were opposed to education and unwilling to take advantage of the facilities offered them for that purpose. But Congress has gone on voting money to support Indian schools, nevertheless, under pressure from certain religious and benevolent organizations which have never had any proper conception of the Indian character, or any definite idea of the Indian situation. If education had been made compulsory to begin with, good results would undoubtedly have been reached by this time; but in leaving the parents practically free to do as they pleased in the case, the opportunity of success was forfeited, and the schools have proved to be a mere mockery. It is useless to talk about inducing the Indians to accept any of the processes of civilization in a voluntary way. They never have done so, as their history plainly testifies. Their methods of reasoning are entirely different from those of the white race. They have no respect for anything but force. The considerations which serve to convince the judgment and enlist the favor of the ordinary American citizen have no effect whatever on their peculiar form of intelligence. They are governed wholly by their traditions, their prejudices, and their fears. It is not sufficient to show them that a certain line of action will promote their progress and develop their ability to support themselves in an independent fashion. They do not wish to make progress, and have no desire to exchange their present dependent position for one of a self-sustaining and self-respecting sort. It suits them best to preserve their tribal relations, to live in idleness, and to keep their children ignorant like themselves. The only process by which they can ever be really civilized is that of compelling them to discard their old savage customs and doctrines; and the proper place to begin is with the schools, which may be made to train the rising generation to improved uses, in spite of the objections of the parents. This theory will be resisted, of course, by that large body of good people whose misfortune it is to have more sentiment than information upon the subject; but it is the correct theory, and Congress can not do a better thing, for the Indians as well as for the country, than to adopt it as the basis of all future legislation in that connection.

In answer to a communication from the editor of the New York Press, wherein he asks for views on free trade and protection, George C. Bryson, Jr. of Carson, in replying thereto, hits the nail square on the head, and his views will meet with the approval of every Nevada, irrespective of party affiliations. He says: "Free trade is a subject which western people do not fully understand, nor have I yet met a person who could explain it satisfactorily. Our press of the State have but little to say respecting the matter, but, my dear sir, I can tell you what the western people do want: It is free coinage of silver. Give us that and you can have all the free trade you desire. Give us this and a reduction in railroad fares and freights on transcontinental roads and the total exclusion of the Chinese, and you will have met with our appreciation."

WASHOE county will probably present the name of ex-District Judge Boardman for nomination for Justice of the Supreme Court. The prominent candidates for that nomination may now be said to be Boardman, Leonard, Murphy, McKenney and Bartine; certainly an able lot of jurists from which to choose a candidate.

THE Democratic papers of the State seem to be in a quandary for an acceptable candidate for Surveyor General. About every other week some one of them nominates a new man for that place.

OVER THE WIRES.

THE WEBFOOT DEMOCRATS.

What They Declare in Their Resolutions—Congressional Nominations.

PORTLAND, Or., April 5.—The Democratic State Convention reassembled yesterday morning. The Committee on Resolutions reported and the platform was unanimously adopted.

The first resolution heartily endorses President Cleveland. The second endorses the present State administration. The third is as follows:

That we most earnestly and unqualifiedly endorse the policy of tariff revision and reduction of surplus revenue to the needs of the government, economically administered, as set forth in the President's last annual message to Congress.

We believe such resolution is dictated by sound policy and that unnecessary taxation is unjust taxation and oppressive, and that the public revenues should, as far as possible, be derived from taxes levied upon the luxuries rather than the necessities of life.

The twelfth section demands the forfeiture of the unearned land grants, and approves the President's message on that subject.

The fifth section suggests that the pension roll be a roll of honor, without visiting on the people so great a financial burden.

Other resolutions denounce the policy of the English Government and express sympathy with Gladstone's and Parnell's efforts; sympathy with the laboring class; favoring the election of United States Senators by direct vote of the people; demanding enlarged power to the State Railway Commission, and demanding of the General Government liberal appropriations for river and harbor improvements.

John M. Gearin was nominated for Congress on the first ballot.

STILL ANOTHER ACCIDENT.

The Southern Pacific Keeping Up Its Deadly Work.

LOS ANGELES, April 4.—About seven o'clock last evening there was a collision between a freight and a construction train, a mile south of San Fernando tunnel. Engineer Westfield, of the construction, and fireman Brooks, of the freight, were killed, and six men badly injured. Both engines were wrecked. The cause of the accident is not yet known.

Engineer Westfield was one of the most popular engineers on the road, and leaves a young wife. Engineer Teasle of the freight had a leg so badly crushed that amputation may be necessary. Fitzgerald, a grader, had a collar-bone fractured. Gregoria, a Mexican laborer, had a leg crushed, and one Bernardo had his skull fractured and will probably die. The injured were brought here to the Sisters Hospital. Three large engines and many cars were totally wrecked. The cause is said to be either misconstruction on the part of the construction train conductor, or an attempt made on his own responsibility to make San Fernando before the freight left. Coroner Meredith is investigating.

The bodies of the dead were brought here at noon, and they presented a sickening sight, being horribly mutilated and scalded by steam. The wounded men at the hospital are doing well. The brakemen jumped out of the cab of one engine and ran ahead half a mile, and signaled the San Francisco express just in time to prevent the train plunging into the wreck, which occurred on a curve.

DESERVED HIS FATE.

A Brute Killed While Attempting to Beat His Wife.

BELLEVUE, Idaho, April 5.—Word was yesterday received of J. G. L. Smith being shot dead by his wife in Halley. Smith was known at Hot Springs, owing a resort two miles west of Halley. He was a cruel man to his family, often beating his wife and children unmercifully. Smith drank considerably during yesterday and went home and began quarreling with the family and threatened to whip his wife and children. The woman retreated to an adjoining room, with her husband advancing. She picked up and fired a rifle and her husband fell dead in his tracks. The bullet struck him just above the left eye, blowing the top of his skull off and scattering the walls and ceiling with blood, hair and flesh. A son 16 years old stood in the room and witnessed the affair. The mother at once surrendered to the Sheriff. Smith was 56 years old and an old-timer in Idaho.

CLEVELAND SNUBBED.

The Democrats of the District of Columbia Ignore Him.

WASHINGTON, April 4.—The Democrats of the District of Columbia gave President Cleveland a direct slap in the face last night. The President had persistently disregarded not only the wishes of the citizens of Washington but the home rule plank of his own convention of 1884. William Dickinson, who was a delegate to that convention, and who is a member of the National Committee, was refused the position of postmaster here, and this was coupled with a declaration by friends of the administration that he would be defeated again. Last night the Democrats of the district held their primaries, and the result was an overwhelming victory for Dickinson, although he made no special effort or canvass. This is not only a snub to the President in the city where he has lived three years, but is a great personal compliment to Mr. Dickinson.

THE PROHIBITIONISTS.

A Stormy Discussion at the Convention in San Francisco.

SAN FRANCISCO, April 5.—The delegates to the seventh annual State Convention of the Prohibition party assembled at Metropolitan hall, this morning. A number of names were placed in nomination for temporary chairman, among them being General John Bidwell, of Chico, and W. D. Gould, of Los Angeles.

There was considerable confusion before the selection was made, and the discussion at times was of a rather stormy nature. General Bidwell was finally elected and the convention adjourned till afternoon.

The Sharon Case Again.

SAN FRANCISCO, April 5.—The Sharon case was taken up in the United States Circuit Court to-day on the argument of the motion recently

made by representatives of the Sharon estate for a bill of revision of the suit, which was pending at the time of Sharon's death. Counsel began a brief argument this morning, but further hearing was postponed until Judge Sawyer's return from Oregon.

A Bigamist Arrested.

SACRAMENTO, April 3.—Constable Chambers yesterday captured James King, the man who married the 16-year-old girl, Mattie Lemer, and who has been charged with bigamy by his bride's mother. King was found at Rowland's, a town bordering on Lake Tahoe. It is said that King has a wife in Butte county. King has stated that all the rumpus has been occasioned by Mrs. Lemer because he would not marry her instead of the girl.

Hattie Woolsten Attempts Suicide.

LOS ANGELES, April 5.—It is learned this afternoon that Hattie Woolsten, accused of the murder of "Doc" Harlan attempted suicide in jail by putting a handkerchief about her neck and fastening it to a bar. The noise of her choking attracted attention and the attempt failed.

Death of a Nevada City Official.

NEVADA CITY, April 4.—Wm. Eddy, City Marshal, died last night of consumption, after an illness of three months. He was 55 years of age. He had been a resident of this county since 1854.

TELEGRAPHIC BRIEVITIES.

—Mongredin, the English writer on free trade, is dead.

—It is considered certain that the Army Retiring Board will recommend the retirement of General Terry.

—Francisco Calzada, convicted of murdering his wife at Los Angeles, has been sentenced to life imprisonment.

—Mike Kirsch, employed in the Southern Pacific yard at Los Angeles, was run over by a switch engine this morning and killed. He leaves a family.

—A Territorial Prohibition mass convention will be held at Odden on Tuesday, the 24th inst., for the purpose of organizing the National Prohibition party in Utah.

—Governor Penoyer of Oregon has granted a full pardon to Pearl Page, alias Mrs. Bryan of San Francisco, who, with C. H. Haring, her "lover," recently robbed an old man named Dickinson, in Portland.

—The Senate Public Lands Committee reported to-day favorably the bill providing that hereafter no portion of the public lands shall be disposed of except under the Homestead Act. If this measure passes no more lands will be sold at \$1.25 per acre.

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at Hodgkinson & Co.'s drug store.

THE DROUGHT IN NEVADA.

A Scientific Theory Regarding its Cause.

The Churchill News, a new publication, publishes the following: Heavy rains in California and none in Nevada; what is the cause? Probably it is due to the desouling of the eastern slope of the Sierra Nevada of its timber, together with the drying up of the water area in Central Nevada. Both are intimately connected through atmospheric influence. We contend that this State is getting dryer every year during the fall and spring months, while California continues to receive her usual copious supply of rain and snow. The annual average may in some localities be made up and even exceed the average during the summer months, when it comes in the shape of cloudbursts and heavy showers of short duration, which is of little if any benefit to the soil.

The desouling of the side of the mountains has reduced the drawing influence upon the clouds from California over the Sierras, and to this loss of attraction must be added the dry atmosphere of central Nevada, caused by the desiccation of the following areas of water surface: Carson lower sink, 15x25 miles; Humboldt sink, 3x10 miles; Humboldt lake, 8x20 miles; total, 565 square miles; which natural water surface has become almost dry, and a mere pond remains of the once magnificent Humboldt lake.

Should dry weather continue a month longer it will be as dry as a powder horn and nothing left to cool the siroccos coming like a blast from the Stillwater and Hot Spring deserts, and their intensity increasing as they proceed, scorching all vegetation in the valleys, licking up the waters of the Humboldt and depriving numerous cattle of their most nutritious grasses.

From the outlet of the Humboldt lake to Old river, a distance of thirty miles, there is not a pint of water left for stock to drink, and the aspect of the desert is more desolate than ever before. The same may be said of the borders of the Humboldt lake where formerly thousands of cattle grazed and grew fat on the best grasses, nothing but desolation and barrenness now exist.

A Model Entertainment.

The Carson Tribune has the following to say of the Royce-Lansing troupe which will appear here Friday, Saturday afternoon and evening: "The entertainment given at the Opera House last evening by the Royce & Lansing Comedy Company was far ahead of anything presented the Carson public this year. The company, though small, is made up of five of the most clever and versatile artists in the profession. They give a refined musical and comedy entertainment, not a thing from start to finish that is not good. Ray L. Royce, the comedian, is fully the equal of Sol Smith Russell as an initiator and a facial delineator. He kept the audience convulsed with laughter throughout the evening. Web Lansing is indeed the greatest musical genius seen in these parts. At one stage of the programme he plays upon seven separate instruments simultaneously. Lizzie H. Royce is pretty, sings nicely, and plays upon half a dozen different instruments. Nellie Hoskins has a pathetic voice, and also masters several instruments. Olaf Moon is a finished violinist. The bell ringing, zither and banjo duets and mandolin and guitar quartettes were musical gems. If the troupe ever drops into Carson again they can rely on being welcomed by a full house." Secure your seats at Davis' cigar store.

"Lock Him Up."

"Powder" is the nickname of a man who is evidently desirous of going to jail, a place he has been before and of which he appears to have no dislike. Yesterday morning Dr. Wagar discovered that a man of spectacles was missing from his office, and taxed Powder with having taken them, he being a frequent visitor to the office. He at first denied the crime, but upon the doctor's promise of immunity from punishment, he piloted him to a beer saloon on Commercial Row where he had pawned them for liquor, and the doctor redeemed them. The right name of the thief is Frank Martin, and he was recently discharged from the State Prison, where he served three years from this county for grand larceny.

Wily Dr. Zangerle.

The case of Dr. Zangerle of Virginia City, charged with having violated an ordinance in not having reported smallpox cases he was attending to, came up for trial in Gold Hill yesterday. The doctor's attorney made a "ten-strike" by announcing that the defense had issued subpoenas for all the smallpox patients of the doctor. The costable braved the anger of the court by returning the subpoenas unopened, as the Board of Health had announced that the witnesses would not be allowed to attend court. As many of them are still ill with the scourge, the court considered the point well taken and continued the case until May 4th.

Reno's Favorite to Graduate.

The friends of Miss Flo. Finlayson, who has been completing her musical education at the New England Conservatory of Music, have been gratified by the receipt of invitations, which read as follows: Signor Augusto Potoli requests the honor of your presence at the graduation recital of Miss Flo. Finlayson, Friday, April 6th, at 8 o'clock P. M."

Star Barber Shop.

There are now two first-class barbers in the shop, and no apprentices. The price of shaving is 15 cents; hair cutting, 25 cents; children's hair cutting, 15 cents. You are guaranteed just as good work as at any shop in Reno. Give me a call and be satisfied.

BREVITIES.

Local and General Intelligence.

"Arbor Day" to-morrow. Sheep-shearers are in demand in Humboldt county.

J. A. Fitzgerald is in Carson to-day on business bent.

The resurrection of the local Democracy is in order.

Judge Bigelow is holding court at Belmont, Nye county.

Six Plutes are doing chain-gang service in Winnemucca.

Justice Young is still confined to his room with rheumatism.

Weather prediction for to-morrow: Generally fair; warmer.

The good people of Verdi will indulge in a masquerade to-morrow night.

The new passenger conductors on the Truckee division are Asa Willis and Mr. Clark.

Miss Winnie Maddux of Reno is contemplating organizing a music class in Truckee.

Business in and around the court house was dull to-day as a Prohibition meeting.

N. H. Haggood has succeeded Mrs. Jones in the ownership of the Silver State restaurant.

Mrs. W. D. Phillips and family went to Carson on the noon local to-day to visit friends there.

Boyd Dille, a young business man of Truckee, has made an assignment for the benefit of his creditors.

A Comstock physician says the smallpox scourge will not be suppressed in Virginia City before the middle of July.

W. R. Chamberlain and Lisle Jamison returned last evening from a very successful business trip into the northern country.

Con. Ryan, an old Humboldt, has been nominated by the Democrats for County Commissioner of Malheur county, Oregon.

Attend the social this evening at the residence of A. McIntosh for the benefit of the Congregational Church. All are invited.

Major H. M. Brown and wife, cousins of President Brown of the University, from Cleveland, Ohio, are spending a few days in Reno.

Mrs. E. A. Littlefield has sold a lot, 50x140, on Sierra street, between Commercial Row and Second street, to L. Bornstein the Boca beer man, for \$1,500.

Judge T. H. Wells and wife returned to Carson this morning. They have been the guests of the Misses Clapp and Babcock for the past few days.

A report was current to-day that little Stella Jose had died recently in Los Angeles. Inquiry revealed the fact that there was no foundation for the rumor.

A project is on foot to enlarge the plaza. If the arrangements are made it is the intention to seed the plot to grass and make it an attractive resting place and promenade.

W. G. Thompson has been appointed Cashier of the Carson Mint and duly confirmed by the United States Senate. He has already entered upon the duties of his office.

James Sheehy, a Comstock sprinter, has issued a challenge to any man in Nevada to run a foot-race from Virginia City to Steamboat Springs for \$200 to \$500 aside.

Mrs. T. F. Laycock, who has been visiting her sisters, Mrs. McKee and Miss Kittie Loomis, left last evening for her home in Los Angeles by the way of San Francisco.

The Utah Central survey of the route to Los Angeles, passes within fifteen miles of Panaca, Lincoln county, and through the scenes of the Meadow Valley Mormon massacre.

It is said that Malheur county, Oregon, will have an assessment roll this year of about a million dollars. Nearly all the wealth of that county consists of stock and ranches.

Newton Evans hay team, while loading at the freight cars on Third street, above Sierra street, yesterday afternoon, took fright and ran away, but were caught before much damage was done.

The Elko Independent says stockmen along the line of the Central Pacific are in favor of a law being passed requiring the company to fence the road in order to prevent the destruction of stock by passing trains.

The University students will appropriately celebrate Arbor Day to-morrow morning. Fifteen trees will be planted and an interesting programme, consisting of essays, declamations and music will be rendered.

Mrs. E. Nichols, who has taken a leading part in local temperance matters, will depart for San Francisco this evening, and from there will proceed to New York where she intends to hereafter permanently reside.

Some years ago the Government contemplated establishing a military post on Maggie Creek near Carlin. Now this idea is abandoned and the land reserved for the post is to be sold. The reservation is said to be good pasture and hay land.

N. J. Roff, who was injured yesterday by the runaway truck team of S. Beemer, is resting easily to-day, and will soon be attending to his accustomed duties. Mr. Beemer has voluntarily offered to replace the cart destroyed and in many other ways has expressed his sorrow for the mishap.

The first attraction for McKiesick's opera house has been billed. On the opening night, the date for which is not yet definitely determined upon, the students of the University, assisted by Miss Onie Gould as leading lady, will present the drama of "Ramona," adapted from the novel of that name by our talented young townsman, C. A. Norcross.

The Royce & Lansing troupe which will appear here on the 6th and 7th instants, is a company composed strictly of ladies and gentlemen of refinement and culture, who are thoroughly competent in their individual lines as artists and are certainly "worthy" of the patronage and confidence of the public. We advise all those wishing good seats to secure them at once at Davis' cigar store.

\$5,000 Reward.

For a better or more pleasant remedy for the cure of consumption, bronchitis, cough, croup and whooping cough than Santa Abie, the California king of consumption. Every bottle warranted. If you would be cured of this disgusting disease, catarrh, use California Cat-R-Cure, \$1 a jar; by mail \$1.10. Santa Abie and Cat-R-Cure are sold and warranted by Osburn & Shoemaker.

PICK AND DRILL.

The "Gazette's" Weekly Summary of Mining News.

The Brophy mine in Flawery is getting out pay ore and looking promising.

The Douglas mill, Lower Gold Hill, is now running twelve stamps on Kentucky ore.

Some very fair ore is being taken from the old workings of the Belmont mine in Nye county.

A new and more powerful steam plant is to be set up at the North Belle Isle mine, Tuolumne.

The Humboldt mill at Spring Valley, Humboldt county, is to crush ore from the mine of that name.

Ore valued at \$1 per pound is obtained from the Golden Age mine, Central district, Humboldt county.

A vein of quartz running high in gold developed last week in the Gold Bar mine, Hawthorne district.

Samples of ruby silver and rich sulphure ore are found in the new development in the Cliff mine, Humboldt county.

The name of the Onondago mine in Esmeralda county is changed to Palisade and is to be developed by California Capital.

The Lang Syne mine at Dun Glen, Humboldt county, is producing 40 tons of ore daily. Forty men are employed in the mine and mill.

There are about twelve men now at work in the Sutor tunnel. A visit to the little town puts a person in mind of Goldsmith's "Deserted Village."

The lessees of the Lapanta, Hawthorne district last week, estimate to have had 100 tons of their ore worked at the Kinkaid mill, producing bullion valued at \$7,158.47.

The Tribune says: Chedie's mine, north of Carson, is turning out some very good ore for a prospecting claim. Assays made so far show \$45 per ton, principally gold.

The Esmeralda News says: A sack of ore weighing only 135 pounds, extracted from the Pamiclo mine, Hawthorne district last week, is estimated to contain \$10,000 in gold. Six sacks from the same property are valued at \$1,000 each. There are eighteen tons of ore on the dump worth \$100 per ton.

The Virginia Enterprise says: The total product of the lode for March will foot up about \$725,000, which is \$25,000 below the estimate. Next month it will exceed \$750,000, and the end of the California month will be in operation next May the monthly product will exceed \$1,000,000. The Gould & Curry and Ophir will then be added to the list of bullion producers.

The Return Leap Year Party.

An enthusiastic meeting of young men was held at Nasby's store last evening for the purpose of making arrangements for giving a grand ball in return for the entertainment provided Monday evening by the young ladies of Reno. After all the preliminaries had been discussed and a plan of procedure laid out, the following committees were appointed:

Committee of Arrangements.—Nasby (chairman), Dr. Greenlaw, Dr. Maddux, C. Coleman, E. Black.

Invitation Committee.—John A. Fitzgerald, Louis Cohn, G. B. Hyman, H. Bergman and George Humphreys.

Wm. D. Phillips was the unanimous choice of the meeting for floor director. The Depot hotel the place for having the banquet, and the evening of the 20th inst. the time for giving the ball.

It is expected that the final arrangements will be completed Saturday evening, when the committees will meet and report progress.

Did Not Die in Poverty.

Under this head the Philadelphia Ledger of March 25th says: "Relations of Mrs. Weigand and Miss Mary Aaron, who died at Mount Holly a few days ago, under circumstances that gave rise to a story that they were in want, state that this was not the case. They had continuous attendance during their sickness, money and provisions in the house, besides money in the bank, and Mrs. Weigand was in receipt of an income from her husband's estate more than sufficient for their support. Kind neighbors sent them delicacies during their sickness, but not because they were absolutely in need of them."

This explodes the charges made against the executors of the estate that rentals were withheld.

Satisfied With Nevada.

George M. Givevich of Bryson & Givevich, Carson, passed through this morning for his home. Mr. Givevich has been on a four-months' tour of the Old World and has visited his native place in Austria. He says Nevada doesn't look like the value of money; don't know what a good government they live under; don't know that they have the best climate in the world; don't know how many blessings they should be thankful for; and, finally, if they doubt his word let them make a trip to the continent of the Old World and he will wager a good cigar they will come back ready to prove his assertions.

Arbor Day Exercises.

The students of the State University will appropriately celebrate Arbor Day, and the following programme of exercises has been prepared. The exercises will commence promptly at 10 o'clock A. M., and a cordial invitation is extended to the public to be present.

Another Runaway.

H. Beaglehole, the expressman, met with quite a severe mishap this afternoon about 4 o'clock, which will confine him to his room for sometime and engender in his mind an aversion for a looking-glass. His team, a spirited pair of dark bays, while on Commercial Row became frightened and ran away despite the exertions of their driver. They made a short turn down Virginia street, throwing Mr. Beaglehole out, causing him to sustain a sprain of the left wrist and bruising his head and face in a frightful manner. The unfortunate man was picked up and removed to his residence and medical assistance summoned. Although suffering considerable pain he is "true grit," and does not murmur. The horses continued on their wild race to Second street, into which they turned, and were stopped at Sierra street, not much the worse for the adventure.

A Library Proposition.

The proposition, of Rev. T. P. Bradshaw, as detailed in the advertising columns, is one which should commend itself to every lover of books. For the small sum of \$1 any person can have the benefit of a large and instructive library, and at the end of the year will be allowed books to the value of the membership fee. In fact, it is the best plan yet promulgated for a library, and a large membership should reward the reverend gentleman for his disinterested efforts to do good.

Energy will do almost anything, but it cannot exist if the blood is impure and moves sluggishly in the veins. There is nothing so good for cleansing the blood and imparting energy to the system as Ayer's Sarsaparilla. Price, \$1. Six bottles, \$5. Sold by druggists.
